

B. Braun Non-Sterile Syringes and Needles

Consistent, dependable performance in a wide range of options

Omnifix® Syringes

Consistent Performance

- High visibility – transparent barrel with bold graduations allows for exact dosing of fluid
- Excellent plunger slide characteristics and secure backstop to prevent accidental plunger withdrawal
- Double seal stopper to prevent medication leakage
- Large, stable finger grips
- Minimal residual volume

Product Configurations

- 1 mL to 50 mL
- With and without graduations
- Standard, fine dose and catheter-fitting syringes
- Luer lock, Luer slip, eccentric and catheter tips

Materials

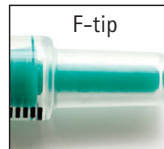

- Barrel and plunger rod: Polypropylene
- Plunger tip: Polyisoprene
- Components do not contain DEHP or natural rubber latex

Injekt™ Syringes

Accurate and Economical

- Green plunger for easy recognition of filling volume
- Smooth, steady operation
- Large, stable finger grips
- Two piece design
- Injekt-F Low Waste Syringe's unique plunger tip designed to deliver virtually all costly medication and provide accurate dosing to 0.01 mL

Product Configurations

- 1 mL to 20 mL
- Luer slip, Luer lock and eccentric tips

Materials

- Barrel: Polypropylene
- Plunger rod: Polyethylene
- Components do not contain DEHP, natural rubber latex or silicone

Sterican™ Needles

Optimized Patient Comfort and Convenience

- Ultra-sharp, tri-beveled needle with smooth surface and light silicone coating designed to promote ease of penetration and to minimize discomfort and pain
- Transparent Luer lock hub designed to provide high visibility to detect flashback
- Color coded hubs for easy identification
- Wide range of diameters and lengths

Materials

- Cannula: Stainless steel
- Hub: Polypropylene
- Components do not contain DEHP or natural rubber latex
